SAVED FROM FLOODS

The Mississippi Checked in Its Rapid
Rise.

DEATH OF A HUNGARIAN PATRIOT.

The German Kaiser's Latest Sig-
nificant Speech.

MURDERER AWAITING DEATH

RESCUED FROM THE FLOODS.

St. Louis, Mo., May 17.—There has been a
slight improvement in the Mississippi river, but it is
not more than half an inch per day, and it is
not yet safe to cross, as the bottom lands grow daily
in the immense districts up and down the stream
from here now under water. Many small
bridges are reported carried away.

In Madison, Ill., above there, there is little
change in the situation from that previously re-
ported, while in East St. Louis, though there is
much water, the town proper is well out of it,
only such buildings as are below grade being in
the water. Of course, the surrounding bottom
land is thoroughly flooded and the damage to
crops, etc., is large. Every point of danger
along the river is carefully guarded and ample
warning will be given when levees break, etc., occur.

The steamer *Johnnie* returned from a trip
down the river and reports the rescue of thirty-
four families (20 persons) from various islands
below here now covered with water. No loss of
life has yet been reported in this vicinity.

The river stage at La. is 36.8 and very
important. The *Johnnie* left at 10 a. m. and
will still tonight. The breaking of the Madison
dam in East St. Louis yesterday threatens to
bring on a coal famine, which may send the
price of coal to \$100 per ton. The *Johnnie* is
now at St. Louis, and the *Johnnie* is now at
